OFFICE ORDER

A workshop on Curriculum Implementation Support Programme (CISP)-2 is being scheduled in our institute from 7th to 8th September 2020, Monday to Tuesday. Under observership of mci representative. It is mandatory for the faculty to get this training.

Following faculty members are being nominated to attend the workshop.

1	Dr. Avantika Bamne	Associate Professor Anatomy
2	Dr. Pawan Kumar Mahato	Assistant Professor Anatomy
3	Dr. Abhilasha Dutta	Associate Professor of Physiology
4	Dr. Arun Mishra	Assistant Professor of biochemistry
5	Dr. Sanjeev Narang	Professor of Pathology
6	Dr. Arun Saxena	Professor of Pathology
7	Dr Vimalkant Jain	Professor of Pathology
8	Dr Pawan Bhambani	Associate Professor of Pathology
9	Dr. Suraj Tripathi	Professor of Pharmacology
10	Dr. Samreen Khan	Assistant Professor Of Microbiology
11	Mr. Mahadev Ujgare	Assistant Professor Of Microbiology
12	Dr. Aarti Sahasrabuddhe	Professor of Community Medicine
13	DR Abhay Manchanda	Professor of Orthopaedics
14	Dr. Parikshit Sharma	Professor of Skin & VD
15	Dr Akhil Shah	Associate Professor of Skin & V.D.

16	Dr Surendra Singh Bhati	Associate Professor of Skin & VD
17	Dr. Sheetal Singh	Professor of Radiodiagnosis
18	Dr.Supriya Mushriff	Associate Professor of Ophthalmology
19	Dr.Sonalee Mittal	Associate Professor of Ophthalmology
20	Dr Sudhir Mahashabde	Associate Professor of Ophthalmology
21	Dr. Swati Prashant	Professor & Head Paediatrics
22	Dr. Naikey Minarey	Assistant Professor Of Paediatrics
23	DR Anuradha Jain	Associate Professor of Paediatrics
24	Dr. Saurabh Piparsania	Associate Professor Of Paediatrics
25	Dr. Abha Pandit	Professor Of General Medicine
26	Dr. Anjali Verma	Assistant Professor Of General Medicine
27	Dr. Chhavi Agrawal Bhati	Associate Professor Of ENT
28	Dr Rekha Agrawal	Associate Professor of OBGY
29	Dr Vimal Modi	Professor & HOD Department of Anatomy
30	Dr Pooja Deodhar	Professor & HOD Department of OBGY

The deputed faculty must report at **9:00 a.m.** at **Lecture hall -1** of **IMCHRC,Indore** and ensure their presence in all the sessions of Programme, which is mandatory as per MCI rules. The detailed programme will be provided after confirmation by MCI.

Following faculty members will be the facilitator for this workshop as per guidelines of MCI.

1.	Dr. Shrikrishna Nagorao Bamne	Professor of Physiology, Co-ordinator of MEU
2.	Dr. Prem Nyati	Professor & Head of Pharmacology, Member of MEU

Medical College Hospital & research Center (under aegis of MCI-RC,
SAIMS, Indore)7-8 September 2020 -list of participants:MCI/NMC
OBSERVER:DR MRS CHHAYA GOYAL,PROFESSOR & HOD ,DEPT OF
PHARMACOLOGY,SAIMS,INDORE

There were total 30 participants

Following Were The Resource Faculties

- 1.Dr. Prem Nyati, Professor of Pharmacology
2. Dr.Harshda shah, Professor and & HOD of Microbiology
3. Dr. S.N. Bamne, Professor of Physiology
4. Dr.Rahul Tanwani, Professor of Surgery
5. Dr. Romi Srivastava, Professor of Pathology
6. Dr Poonam Patel, Associate Professor of Pharmacology

On 1st day,

Started with registration of participants, and pre-test
Programme started with prayer to almighty god for the success of this
session and entire workshop.

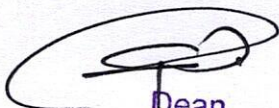

After which it is followed by welcome to the MCI- observer and
introduction to faculties and resource faculties, ice breaking session.

Next session was on goals, roles and competence in context with
competency based medical education (CBME).

The principles of competency based medical education were discussed
along with definitions of goal, role and competency and their relationship
between each other. The differences between traditional and CBME were
also discussed.

After which there was tea break.

It was followed by a session on Indian medical graduates and their
sensitization to the goals, roles and global competencies developed by the
MCI/NMC .How to link national health needs to competencies and
objectives was also discussed.

Dean

Hospital & R.C.,INDORE

Registrar
Malwanchal University
Indore (M.P.)

Next, session on competencies and objectives was taken where the differences between the two terms, importance and writing of specific learning objectives (SLO), along with developing objectives from competencies and linking domains of learning with competencies were discussed in detail by using the competency sheet.

Which was followed by workshop/hands on experience for making/formulating specific learning objectives (SLO) from given competencies, proper alignment and discussion on relevant teaching-learning methods.

This was followed by lunch

Post lunch session on graduate medical education regulations (GMER-2019) was taken where the time frame, training methods, integration, assessment, new additions like foundation course and formative feedback was discussed.

Next session was on electives and its concept.

After which there was tea break.

Post tea sessions were interactive sessions on foundation course, early clinical exposure-concept, component, timeframe and examples and AETCOM module-purpose, mission and objectives and booklet review.

On 2nd day,

The first session was on student-doctor-clinical teaching where the concepts and framework of the same were discussed followed by group activity.

It was followed by session on alignment and integration where the concepts and framework using examples from competency table was discussed.

It was followed by tea break, after which session on skills training where a group activity on competency acquisition and skills lab, prescription skills were organized. This was followed by lunch.

Post lunch session was on assessment in CBME, where principles as relevant to CBME and various assessment methods were discussed.

This was followed by tea. Which was followed by group activity on aligning assessment to competency objectives & TLM.

This was followed by session on curricular governance.

Which was followed by feedback from participants, open house and valedictory and post test.

WHAT YOU'LL LEARN

MODULE #1

Identify the major types of cancer

MODULE #2

Describe how genes contribute to the risk and growth of oral cancer

MODULE #3

List and describe the cellular hallmarks of oral cancer

MODULE #4

Define metastasis, and identify the major steps in the metastatic process

MODULE #5

Describe the role of imaging in the screening, diagnosis, staging, and treatments of oral cancer

MODULE #6

We'll examine the variety of treatment options available to patients as well as the features of clinical trials and how they are used to improve the treatment arsenal.

INSTRUCTOR

Dr. S. Prabhu

He is a renowned Oral & Maxillofacial Surgeon with special expertise in the field of head & neck cancer and microvascular reconstructive surgery, amongst his numerous accomplishments. He is an active member of various National & International Maxillofacial Organizations, and is from one of the very few maxillofacial surgeons with a qualified 3 tier assessment- University, National Board, and Professional board certification.

COURSE DETAILS

DATE: 4th to 10th February, 2020

TIMINGS: 4:00 to 6:30 pm

PLATFORM: ZOOM

REGISTRATION: Free

ELIGIBILITY: Faculty members

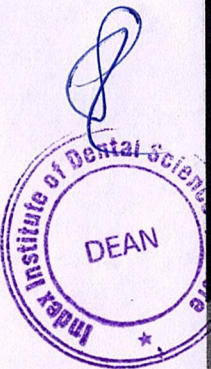

COURSE CO-ORDINATOR:

Dr. Bhoopendra Singh Rajput

Half of oral cancer patients in India die within a year of diagnosis and are aged between 30-50 years."

"Cost of Illness Analysis of Oral Cancer",
conducted by Tata Memorial Centre

Malwa Branch
Indore (M.P.)

INDEX INSTITUTE OF DENTAL SCIENCES

Date: 11th February, 2020

Report for FDP – Cancer Biology

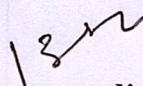

The faculty professional development program titled “Cancer Biology” has been conducted successfully from 4th to 10th February, 2020, at Index Institute of Dental Sciences, Indore. A total of 66 members from the faculty participated in the program via Zoom platform. The 7-day program, held in-keeping with the purview of World Cancer Day, opened with the address from the Honourable Vice Chancellor, Malwanchal University, Indore – Shri N. K. Tripathi, highlighting the huge menace caused by the disease in the whole of the country. Thereafter, the program directed to develop an understanding of oral cancer and how it is prevented, diagnosed, and treated. It introduced the molecular biology of oral cancer (oncogenes and tumour suppressor genes) as well as the biologic hallmarks of the same while describing the risk factors for the disease worldwide. The instructor, Dr. S. Prabhu, a renowned expert in the field of head & neck cancer and microvascular reconstructive surgery, explained how oral cancer is staged, the major ways cancer is found by imaging, and how the major cancers of the head & neck are treated, with major concerns towards the rising incidence and disease mortality with respect to oral cancers in India.

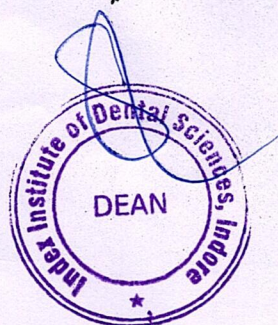

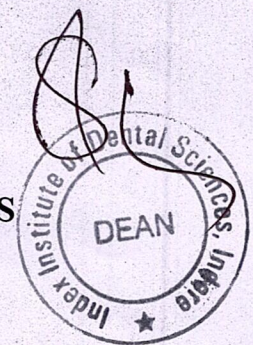

04/25/20
Registrar
Malwanchal University
Indore (M.P.)

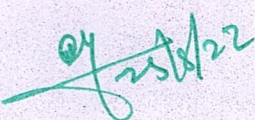

The course comprised of 6 modules. The first module emphasized on the identification of major types of cancers. The second module helped inculcate the understanding of how genes contribute to the risk and growth of oral cancer. In the third module, cellular hallmarks of the disease were discussed. Module four defined metastasis, and identification of major steps in the metastatic process. Module five included discussions over the role of imaging in the screening, diagnosis, staging, and treatments of oral cancer, and in module six the participants examined the variety of treatment options available to patients as well as the features of clinical trials and how they are used to improve the treatment arsenal.

Overall, the program was highly successful with great interactive inputs from all the participants. It ended on a high note with a closing speech from the honourable Dean, Dr. Satish Karandikar.

TRAINING OBJECTIVES

- I. How to perform vulnerability assessment.
- II. Preparing for emergency.
- III. Identifying risk and management.
- IV. Criteria.

Dr. Lalita
Principal

INDEX NURSING COLLEGE
INDORE (M.P.)

Concept

A vulnerability assessment is the process of defining, identifying, classifying and prioritizing vulnerabilities in computer systems

A vulnerability assessment process is intended to identify threats and the risks they pose. They typically involve the use of automated testing tools, such as network security scanners, whose results are listed in a vulnerability assessment report.

Vulnerability assessments also provide an organization with the necessary knowledge, awareness and risk backgrounds to understand and react to threats to its environment.

Modules

- I. Performing the vulnerability assessment
- II. stages of vulnerability assessment and identification.
- III. Criteria of assessing vulnerability.
- IV. Understanding method of assessment.
- V. Emergency preparedness
- VI. Indication or ways in which vulnerability can be expressed.
- VII. Explain the difference between vulnerability scanning penetration testing
- VIII. Identifying risk at different stages and management

Eligibility – staff of Index nursing college

Start Date: 09/11/2020-13/11/2020

FACULTY DEVELOPMENT PROGRAMME FOR TEACHING STAFF ON VULNERABILITY ASSESSMENT IDENTIFICATION AND CARE

Overview

Index nursing college affiliated to Malwanchal University organized faculty development programme for teaching staff on “**VULNERABILITY ASSESSMENT IDENTIFICATION AND CARE**” from 09 to 13 November 2020 under the guidance of Dr. Prof. Smriti G Solomon, Principal, Index Nursing College and with the blessings of Shri. Suresh Singh Bhadoria, Chairman, Index Group of Institutions.

Course outline:

A vulnerability assessment is the process of defining, identifying, classifying and prioritizing vulnerabilities in computer systems

A vulnerability assessment process is intended to identify threats and the risks they pose. They typically involve the use of automated testing tools, such as network security scanners, whose results are listed in a vulnerability assessment report.

Vulnerability assessments also provide an organization with the necessary knowledge, awareness and risk backgrounds to understand and react to threats to its environment.

The program was organized for three days and the timings were from 2:00 am to 4:00pm. The first day session was started with registration at 2:00am. This was followed by inaugural ceremony. The Chief Guest was Dr. Mayank Indore, M.P. The inauguration session was started with lighting the lamp by the chief guest with the Principal and Organizing Secretary. After lamp lighting, welcome speech was delivered by Miss. Sapna waske tutor/clinical instructor. This was followed by a break of 15 minutes. The first educative session was given by the chief guest, Dr. Mayank, on “Introduction to vulnerability assessment identification and care”. In the session she discussed about the vulnerability

Medication Error

TRAINING OBJECTIVES

1. To decrease medication error.
2. To improve patient safety through determining and reducing the major causes of medication error.

MODULE

1. Types of medication error.
2. Causes of medication error.
3. Factors contributing to medication error .
4. The 6R's.

CONCEPT

A medication error can be defined as " a failure in the treatment process that leads to harm to the patient.

The confusing drug names are one of causes of medication error. This error may harm or even cause death of the patient.

In most cases mistake have occurs if checking before dispensing is not done properly.

LEARNING OUTCOMES

1. Dispensing of drugs .
2. Familiar with LASA drugs.

Schedule

INDEX INSTITUTE OF PHARMACY

REPORT FOR FDP MEDICATION ERROR

The Faculty Development Programme was scheduled between 05/03/2021 for 2 hours per day, the programme was conducted by Dr. Sangeeta Maheswari. This programme was organized to enhance the knowledge and for the development of the faculties. The seminar was conducted in room no. 2 of DOP.

The topics covered in her session are as follows:

1. Types of medication error
2. Causes of medication Error
3. Factors contributing to medication error
4. The 6 R's

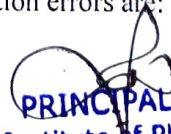

On first day she started her session with the general introduction on the topic medication and medication error. She explained the definition of medication and medication error. A medication is a product that contains a compound with proven biological effects, excipients etc. A medication error is defined as "any preventable event that may cause or lead to inappropriate medication use or patient harm while the medication is in the control of the healthcare professional, patient, or consumer." She continued her session by explaining the types of medication errors. The types of medication are as follows:

- **Prescribing:** In this type she explained that the physician has prescribed a wrong medication to the patient. It can be any mistake happen by the prescriber like age of patient, gender of the patient etc. These factors mainly affect on the medication errors.
- **Wrong time:** This types errors occurs when the patient has taken his medication at wrong time. Like some medicine or drug has to taken before meal, but if the patient consume medicine after meal it will lead to some errors.
- **Improper dose:** In this type of drug the patient consume improper medication like instead of taking 5ml of cold syrup, patient took 10ml of syrup.
- **Lack of awareness of expiration dates:** Although expiration dates are printed on the bottle or label, many patients do not pay attention to the date and consume drug the expiry of the drug.

On second day she took her session on the topic causes of medication Error, in this she explained that the most common causes of medication errors is improper communication between the doctors and patient. And the others causes of medication errors are:

A. Errors of omission:

Registrar
Malwanchal University
Indore (M.P.)

PRINCIPAL
Index Institute of Pharmacy
Malwanchal University,
Indore

Errors related to prescription: Any mistake happen by the prescriber like age of patient, gender of the patient etc.

Drug dispensing by pharmacist: In this errors may cause while dispensing the medication, the patient gets changed.

Drug administration by the patient: This type of errors can cause when the patient does not administered his or her medication in proper way.

B. Errors of commission: most common form of errors encountered in clinical practice, include wrong phenomenon, drug interaction related, communication failure, overuse of drug.

On third day she took her session on the module factors contributing to medication error are as follows:

- Lack of knowledge of the prescribed drug, dose, patient details: This type of errors occurs when the pharmacist does not have the proper knowledge about the drug and its dose and also about the patient details like his age or gender.
- Illegible handwriting: This is the most common factors where the pharmacist was able to able to understand the handwriting of the physician, and by getting confused he dispensed wrong medication.
- Confusion with the drug name: some drugs which have same pronunciation but have different mechanism leads to medication errors, while confusing by these names of the drug the pharmacist dispense wrong medication to the patient.
- Inappropriate use of decimal point. This factors also cause medication errors, in this type the pharmacist was confused in the decimal point and he dispensed the wrong dosage to the patient.

On fourth day she took her session on the topic The 6 R's. The 6 R's are as follows:

1. Right patient
2. Right drug
3. Right dose
4. Right time
5. Right route
6. Right documentation

These are the 6 R's which will avoid the medication errors.

At last day of the session she guided the faculties to avoid these all the factors and cause to avoid medication errors.

INDEX

Department of Physiotherapy and Paramedical Sciences

Title – Faculty development program on Outcome Based Teaching Method

Date -07/09/2020 to 11/09/2020

Venue – Index Department Of Physiotherapy and Paramedical Science, Indore

Resource Person -Dr. Rahul Tanwani

Five days training was organised by Index Department Of Physiotherapy and Paramedical Sciences, Malwanchal University, Indore on 07/09/2020 to 11/09/2020. The workshop started with the lighting of the lamp, in which Dr. Reshma Khurana, Principal, Index Department Of Physiotherapy and Paramedical Science, Dr. Rahul Tanwani, Resource Person all the faculty members, staff members of institution were present.

Day 1 (07th september'2020)

- * Learning outcomes
- * Teaching and Learning
- * Evidence of Learning
- * Data analysis and Reporting
- * Enhancement of Learning

All the faculties and staff members attended this workshop on outcome based teaching method and demonstrated very well ensuring that all the attendees understood the training quite well and learned something from it under the guidance of Dr. Rahul Tanwani, during the workshop hours.

The main purpose of this program is to teach this latest system of physiotherapy education

Day 2 (08th september '2020)

- * Active learners
- * Assessment on an ongoing basis
- * An integration of knowledge
- * Learner centered
- * Lecturers can be innovative and creative

All the Faculties and Staff members attended this training and the Outcome based teaching techniques were being demonstrated individually to each attendee under the guidance of Dr. Rahul Tanwani, during the workshop hours.

Day 3 (09th september '2020)

- * Focus on communication
- * Emphasis on the Process
- * Open ended multiple solutions
- * Critical thinking reasoning

Registrar
Malwanchal University
Indore (M.P.)

All the Faculties and Staff members attended this training and demonstrated on the basic problem of the poor quality of the education is very important to present generation of students. National bodies concerned with education like UGC and AICTE have been looking for ways and means to bring about reforms in education system that would improve the quality of education

Day 4 (10th september '2020)

- *Flexible time frames ; learners determines Pace
- *Program course content
- *Teaching learning strategies
- *Assessment and feedback

All the Faculties and Staff members attended this training and The teacher introduced a new concept or skill to a whole cohort by teaching up to the level of the most able learners in the training under the guidance of Dr.Rahul Tanwani

Day 5 (11th september '2020)

- *Departmental visions and goals
- *Ideal graduate characteristics and learning outcomes
- *Conceptual framework
- *course design and alignment

q

All the Faculties and Staff members attended this training on Outcome based Teaching methods. This training brings a good exposure on ideas and concepts underlying outcome based Teaching particularly with reference to teaching and learning and to come up with New Ideas

The main purpose of this programme is to teach this latest system of education in physiotherapy

Certificate were distributed to all the attenders.

Faculty attended this programme and learned lots of strategies under the guidance of Dr Rahul Tanwani during the programme hours. The main purpose of this programme is to teach teachers the importance of psychological and emotional objectives for the betterment of students

The programme ended by vote of thanks by Dr. Payal jain and presenting momentos to Dr. Rahul Tanwani by Dr. Reshma Khurana principal of index department of physiotherapy and paramedical sciences.

INDEX

Department of Physiotherapy & Paramedical Sciences

Title- "Innovative Teaching Methods"

Date -16/12/2020-20/12/2020

Venue – Index Department Of Physiotherapy and Paramedical Science, Indore

Resource Person- Dr. Sudha Shrivastav

"The process of proactively introducing new teaching strategies and methods".

Five days on program was organised by Index Department Of Physiotherapy and Paramedical Sciences, Malwanchal University, Indore on 16/12/2020 to 20/12/2020. The program started with the lightening of the lamp, in which Dr. Reshma Khurana, Principal, Index Department Of Physiotherapy and Paramedical Science, Dr Sudhar Shrivastav ,Resource Person, all the faculty members, and staff members of institution were present.

Day 1 (16/12/2020)

Personalized Learning

Personalized learning customizes what, when, and how each teaching is taught. Rather than using a single approach or plan to teach the entire, teachers adjust to the capabilities of each to help them succeed.

Blended learning

This teaching strategy the more responsibility over their own learning the teacher functioning as a general guide and overseer over a more discovery-based learning environment.

All facilities attended this program and the cupping techniques were not only being demonstrated but the sets for practice were also provided individually to each student under the guidance of Dr. Sudha Shrivastav, during the program hours.

Day-2 (17/12/2020)

Adaptive learning

Adaptive learning technology collects data from specific questions on a computer. Then the software uses that information to provide immediate feedback or adaptation and notifies the teacher so they can change the lesson plan accordingly.

Project-based learning creates exercises that require to identify a real-world problem and then devise a solution. Project-based learning is built on the development of specific, transferable skills such as research, critical thinking, problem-solving, and cooperation.

Jigsaws

Any educator understands that being able to teach a concept to others successfully demonstrates true mastery. Jigsaws are a tried-and-true cooperative learning technique that capitalizes on this idea. and each group given distinct information that they must learn well enough to teach to another group.

All facilities attended this program and the cupping techniques were not only being demonstrated but the sets for practice were also provided individually to each student under the guidance of Dr. Sudha Shrivastav, during the program hours.

Asking Open-Ended Questions

On finding the one right answer in their textbooks versus thinking outside the box. They may develop the belief that there are only right and wrong responses. However, most questions do not have single specific solutions.

Day -3 (18/12/2020)

QR Codes

QR (Quick Response) codes are simple to develop and have several applications in classrooms of all grade levels. QR codes can direct students to information simply by scanning the code with a digital device.

Inquiry-Based Learning

Inquiry-based learning entails more than simply asking what he or she wishes to learn. The main purpose is to generate curiosity to engage in the material. However, stimulating a curiosity is a far more essential and challenging task than simply delivering facts.

Day-4 (19/12/2020)

Culturally Inclusive Teaching

Teaching can be difficult due to coming from various cultural backgrounds with diverse needs.. Culturally inclusive education connects the subject matter to the cultures establishing a personal connection., information, then use examples and exercises to connect their study topic to different cultures. Note that incorporating different cultures must be done delicately.

Flexible Learning Environments

Teachers should know how to use their classrooms for different instructional approaches. For example, when teachers are willing to change the furniture around in the classroom, they may discover that it is a critical variable for boosting student learning.

Day-5 (20/12/2020)

The Bottom Line

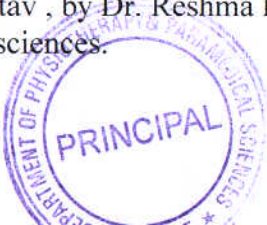

Each of the nine strategies employs ways to encourage questioning, exploration, technology usage, and content analysis using available materials and research.

Flipping

In this strategy, standard lectures are set aside in favor of time spent on research, application, and assessment to better connect learners and their needs. Outside topics by reading, watching short pre-recorded video lectures, or researching tasks. In working through the content in groups or individually during active learning, emphasizing complex reasoning and problem

The program was conducted under the guidance of Dr. Reshma Khurana, Principal, Index department of physiotherapy and paramedical sciences. The program managed by Dr. Vaishali Patel, Faculty, Index Department Of Physiotherapy and Paramedical Sciences

The program ended by Vote of thanks by Dr. Vaishali Patel presenting mementos to Dr. Sudha Shivastav, by Dr. Reshma Khurana, Principal, Index department of physiotherapy and paramedical sciences.

Department of Physiotherapy & Paramedical Sciences

Title- Faculty Development Program on "Students Motivation"

Date -11/01/2021-15/01/2021

Venue – Index Department Of Physiotherapy and Paramedical Science,Indore

Resource Person -Dr.Anchala Dixit

“Teachers can open the door, but you must enter it yourself.”

Five days hands on Program was organised by Index Department Of Physiotherapy and Paramedical Sciences, Malwanchal University,Indore on 11/01/2021-15/01/2021. The program started with the lightening of the lamp, in which Dr.Reshma Khurana,Principal, Index Department Of Physiotherapy and Paramedical Science, Dr.Anchala Dixit,ResourcePerson all the faculty members and staff members of institution were present.

Main objectives of the program.

1. Give students a sense of control
2. Be clear about learning objectives
3. Create a threat-free environment
4. Change your scenery
5. Offer varied experiences.
6. Use positive competition
7. Offer rewards
8. Give students responsibility
9. Allow students to work together
10. Give praise when earned

Some important points were also discussed during this program which are as follows
1-Expectancy refers to a student's expectation that they can actually succeed in the assigned task. It energizes students because they feel empowered to meet the learning objectives of the course.

2-Value involves a student's ability to perceive the importance of engaging in a particular task. This gives meaning to the assignment or activity because students are clear on why the task or behavior is valuable.

3-Cost points to the barriers that impede a student's ability to be successful on an assignment, activity and/or the course at large. Therefore, students might have success expectancies and perceive high task value, however, they might also be aware of obstacles to their engagement or a potential negative affect resulting in performance of the task, which could decrease their motivation.

During the speech some important issues were also discussed which are as follows

Registrar
Malwanchal University
Indore

The role of teachers through history

Throughout history, teachers have played a role in shaping people's character, which is not surprising, given the fact that a person's character and personality are formed at an early age. In ancient times, teachers had somewhat different roles than they do today.

Teachers as a symbol

In ancient times, the teacher was considered a symbol of truth, beauty, and purity. Ancient India valued teachers very highly for their selfless service, high learning, and moral and spiritual purity.

Continuous transfer of knowledge was possible only with the help of teachers, and students had to rely on them, given that the printing press had not been invented yet, and there were no books. For that reason, teachers were shown great respect. They had to be honorable and moral people with a good grasp of their teaching area.

Teachers as guru

The word guru comes from Sanskrit. Gu stands for darkness, and Ru for light that dispels it, meaning that guru means one who dispels the darkness of ignorance, a person who guides young people toward light.

Guru is the name for a spiritual teacher in Hinduism, Sikhism and Tantric Buddhism. The ancient ideal of the guru was identified with the teacher, he was a source of wisdom and possessed absolute authority. He was associated with intellectual, spiritual and moral quality. The teacher was considered indispensable for students in their search for knowledge and the path to "awakening" from the dream of reality. It was the teacher who helped students to see the reality as it really was.

Faculty attended this program and learn lots of beneficial strategy under the guidance of Dr. Anchala Dixit, during the program hours.

The main purpose of this program is to teach teachers the importance of psychological and emotional objectives for the betterment of students.

The program ended by Vote of thanks by Dr. Payal Jain and presenting mementos to Dr. Anchala Dixit by Dr. Reshma Khurana, Principal, Index department of physiotherapy and paramedical sciences.
